## PROFILE

I am a software developer with a strong focus on building modern applications using technologies like Flutter, React, and Golang. My expertise extends to database management with SQL, Firebase, Supabase and other backend services. While software development is my primary focus, my background in multimedia including content creation, graphic design, and video editing enhances my ability to create visually engaging and user-friendly applications. I am committed to continuous learning and actively seek new challenges to expand my skills and stay up to date with emerging technologies in the field.

## PROFESSIONAL EXPERIENCE

### ProBASE Limited

Software Engineer

01/2025 – Present | Lusaka, Zambia

#### Mobile App Development

- Develop cross-platform mobile applications using Flutter, delivering responsive, user-friendly solutions for diverse business needs.

#### System Development

- Design and maintain scalable backend systems using Golang, SQL, and Firebase, ensuring secure handling of sensitive financial data.
- Integrate backend services with BI tools, enabling real-time data visualization and performance monitoring.

#### Data Analysis & Business Intelligence

- Design and execute complex SQL queries in PostgreSQL (PGAdmin4) to extract, clean, and analyze large datasets for reporting and decision-making.
- Conduct data quality assessments, identify anomalies, and implement data validation checks to ensure accuracy and reliability of business-critical reports.
- Collaborate with cross-functional teams to translate business requirements into meaningful metrics and actionable insights for stakeholders.

#### UI/UX Design

- Create intuitive UI/UX designs in Figma and Adobe Creative Suite, ensuring data visualizations and reporting dashboards are clear, engaging, and business-friendly.

### Pamo

Founder, Developer and Multimedia Developer

09/2022 – 05/2024 | Lusaka Zambia

#### App Development

- Founded and developed a cross-platform event ticketing mobile application using Flutter and Dart
- Integrated Firebase into my mobile app as a scalable backend.

#### Startup Operations & Leadership

- Co-managed a 4-person team, coordinating responsibilities across development, design, and marketing.
- Facilitated async communication, lightweight project planning, and peer feedback to keep the team aligned and productive.
- Represented the team in pitch events and networking spaces, articulating the product vision and gathering user insights.

#### Data Analysis & Reporting

## SOFT SKILLS

- Leadership and team-management
- Creative Problem Solving
- Collaboration
- Adaptability
- Resilience
- Analytical thinking
- Stakeholder engagement
